THE SPECIALTY MANUFACTURING COMPANY NAMED TO LIST OF MINNESOTA'S TOP 150 WORKPLACES AND #1 IN OVERALL BENEFITS.

White Bear Lake, MN, June 21, 2017– The StarTribune has named The Specialty Manufacturing Company to the publisher's list of the 150 Best Workplaces in Minnesota. This award is the result of the Minneapolis, MN based newspaper and online news outlet's annual review of employers across the state.

"It is truly an honor to be included in this prestigious list. It is a tribute to the loyalty and dedication of all Specialty Manufacturing Co. employees. We are proud of our legacy and the employees that have made our workplace special and productive," said Daniel McKeown, President of The Specialty Manufacturing Company, "We are a family owned business with over 100 years of service to companies around the globe. Taking excellent care of our customers begins with taking care of our employees and providing an environment of inspiration and innovation. We especially enjoy taking on the manufacturing challenges many of our competitors can't or won't. I am very appreciative of the effort our employees give every day to provide customers with a superior value." McKeown continued.

Now in its eighth year, the StarTribune's Best Places To Work award is recognized across Minnesota as an excellent way for employers to build their brand, communicate workplace values, recruit new talent and retain current employees. Each year, through their partner WorkplaceDynamics, employers are ranked based solely on scores generated by employee responses that measures engagement, organizational health and satisfaction. The 2017 research also ranked **The Specialty Manufacturing Company** #1 in overall benefits within the 350 companies and over 70,000 employees that participated. Only the top employers in each size category — small, medium and large — receive the special designation as a Top 150 Workplace.

The Specialty Manufacturing Company also wants to congratulate all the companies honored this year. Each recognized organization is uniquely distinguished and has earned the respect of its employees and the community.

The Specialty Manufacturing Company's capabilities make possible the wide spectrum of services it offers: including engineering, machining, stamping, injection molding and assembly. Ultimately, the company name was aptly created more than 100 years ago. The Specialty Mfg. Co. is uniquely positioned to focus on efficiency by advancing designs for manufacturability.
