## The Specialty MFG. Co. Announces Digital Catalog for Dental Supplies

Specialty Dental, a division of The Specialty MFG Co., offers a wide range of quality components commonly used in the dental industry. The company's digital catalog features 36 pages of Specialty Dental valves and products with detailed images and performance specifications. Products in the catalog include parts for the following:

- Delivery system components
- Custom components—HVE, manifolds, toggle valves
- Alternative cart components
- Surface mount controls
- Water system components
- Advanced operatory systems

Accessible on the company website, the Specialty Dental online catalog contains links to product specs, Specialty MFG's intuitive online product configurator, and company videos. The catalog is easy to navigate and includes the components most commonly used by the dental industry. Organized by product, the catalog displays parts by function, color, and size. Ordering components is easy and straightforward. Convenient access to a 'contact us' form for product inquiries along with a link to request product quotes are readily accessible. The catalog is also available in a printable format and a .pdf download.

In addition to providing the most reliable and trusted components in 'standard sizes', Specialty Dental delivers products and services other manufacturers can't or won't do. Specialty Dental is proud to manufacture its line of dental equipment and parts to custom specifications whenever customer configurations require it. The company's capabilities include technical and engineering support as well as design and prototyping expertise. Specialty Dental prides itself on turning customer ideas into customized, smart and functional designs that are cost effective and efficient to manufacture. In short, customization is their specialty.

All products in the Specialty Dental catalog and all custom products are proudly made in Minnesota, USA and comply with ISO standards. Formerly known as Marr Valve, Specialty Dental is part of an organization with a long tradition of exceptional manufacturing, providing high quality products and superior service to customers for over 120 years.
